

W62 DIESEL

IT'S A CHOICE THAT ONLY COMES FROM WORKHORSE: A HEAVY-DUTY WALK-IN TRUCK AVAILABLE AS A GAS OR DIESEL. THAT'S THE W62.

With capacities from 19,500-23,500 lbs. and wheelbases from 157-218 in., the W62 diesel is ideal for your laundry, linen or newspaper delivery business. Or for your tool, trade, plumbing or utility company.

The W62 is powered by International's MaxxForce™ 5 V-6 diesel engine. Its 200 hp and 440 lb.-ft. torque give you the heavy-duty pulling power you need. And with four valves per cylinder, an advanced fuel injection system, two-stage turbocharger and enhanced electronics, the engine delivers outstanding reliability, fuel economy and emissions control.

In addition, we'll cover your truck with free roadside service for three years or 36,000 miles. No other walk-in truck manufacturer does.

Choose the hard-working, long service life Workhorse W62 diesel as your next heavy-payload walk-in truck.
